DESIGN

You have a vision. Your home—but better. Larger, more breathtaking, more functional. More satisfying. We bring this vision to life with a design unlike any other: distinctive and individualized, soaring or intimate, responsive and beautiful. And then we build it.

BUILD

Lee Kimball brings skill, precision, personalized service, and true communication to every project. Our project managers, contractors, and carpenters work seamlessly together. In their hands, the elements of wood, stone, and space coalesce into something remarkable—the design of your dreams.

OUR CLIENTS

Our clients open their homes to us. They open our eyes with their insights, and they work with us as partners to achieve positive change in the spaces surrounding them. They bring ideas, enthusiasm, trust—and a specific perspective essential to the project. Through them, we see new possibilities.

Lee Kimball offers a complete range of design/build services, enhancing our clients' homes and making a difference in their lives. Our efficient process saves time and money, reduces stress, and helps clients maintain control over all aspects of a project.

OUR TEAM

As a firm, we believe in what we are doing. We offer expertise, commitment, and exceptional skills. Yet this is not what defines us. We are defined by our relationships—our ability to integrate a client's vision and our own in a true partnership. Respect and integrity guide everything we do.

FUN

We work hard to get the job done right—but that's only half the story. The design experience is exhilarating, and the transformation of a home can be exciting and satisfying. Our clients' enjoyment of the project infuses each room we build with lasting goodwill, strong positive associations, and enduring comfort..
